Forecast for Friday 22 Oct 2021

Weather: Some heavier showers in the early hours with snow above 900m. The showers becoming isolated by dawn though any that remain could be of snow to 750m. A generally dry day with some sunny spells and occasional cloud. There is just the small chance of a brief light shower at first, wintry on the summits.

Chance of cloud free mountain/hill tops above 800m: 60% in early hours, 90% or more by afternoon, 60% by midnight.

Visibility: Occasionally poor in any heavier showers in early hours. By day very good with cloud above most of the summits, but some cloud on the highest 1100m tops in the morning, and again late evening.

Met Office Aberdeen Meteorologist's View
A decent day on the hills on Friday but be prepared for cold conditions especially in the morning, with some slight snowcover on the tops.

Forecast for Saturday 23 Oct 2021
Weather: A rather cloudy day, with a little patchy rain developing during the morning. Some bright spells in good shelter northeast of the Cairngorms. The rain becoming more persistent over the south and west in the evening.

Maximum wind: South to southwest 35-40mph gusts 55mph increasing 50 gusts 70mph on the Plateau later

Chance of cloud free mountain/hill tops above 800m: 50%, falling 20% by evening.

Visibility: Mainly good by day away from cloud, occasionally moderate in patchy rain, then more widely moderate to poor in the rain in the south and west in the evening. Cloud patchy above 750-900m, often clinging to high tops, then more general cloud layers developing at 500-750m in the evening except in good shelter in the far northeast.

Temperature: **Glens:** Plus 2 Celsius in early hours rising to Plus 11 in the afternoon.
At 800m: Plus 4 Celsius rising to Plus 9 Celsius.
Freezing level: 1100m early hours then above summits during the day.
